

Project Development Phase Model Performance Test

Date	30 June 2025
Team ID	LTVIP2025TMID55781
Project Name	HouseHunt: Finding Your Perfect Rental Home
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No	Parameter	Values	Screenshot
1	Application Summary	MERN stack rental app with role-based dashboards for renter, owner, and admin. Features include property listing, booking requests, image upload, and approval flow.	
2	Functionality Testing	All CRUD operations working as expected. Role-based navigation. Image uploads using URL. Responsive UI tested on multiple screens.	
3	Validation Testing	Frontend form validations for property details and booking requests. Backend schema validation using Mongoose.	

4	API Test Results	All API routes tested via Postman: 200 OK, 201 Created, 400 Bad Request, 404 Not Found, 500 Internal Error (handled).	
5	Performance Check	Tested using browser dev tools. Page load time < 1.5s. Network request latency < 500ms for most APIs.	
6	UI Responsiveness	Fully responsive tested on desktop, tablet, mobile. Built using React with CSS media queries and modern layout.	
7	Fine Tuning / Debugging	Fixed property list persistence, booking status updates, and session rehydration. Added loader and error boundaries for smoother UX.
